

2022-1st Researcher Recruitment for College of Natural Sciences

I Candidates and Eligibility

No.	Position/Research field	Expected number of people	Main Task, Eligibility and preferences
GHM1-1	Post-Doctoral Researcher -Gas phase spectroscopy or atomic and molecular physics (Pl. BumSuk Zhao)	1	<p>[main task]</p> <ul style="list-style-type: none"> Perform research projects on manipulating molecules using optical standing waves and grazing incidence matter wave optics (controlling molecular motions with molecule-field or molecule-surface interactions) <p>[Eligibility]</p> <ul style="list-style-type: none"> Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) must have more than 2 SCI publications in relevant fields in the last five years <p>[Preferences]</p> <ul style="list-style-type: none"> Related research experience
GHM1-2	Post-Doctoral Researcher -Physical Chemistry (Pl. Oh-Hoon Kwon)	1	<p>[main task]</p> <ul style="list-style-type: none"> Perform research project <ul style="list-style-type: none"> - on ultrafast phenomena in condensed matter using ultrafast electro microscopy - on ultrafast dynamics using ultrafast spectroscopy <p>[Eligibility]</p> <ul style="list-style-type: none"> Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) <p>[Preferential]</p> <ul style="list-style-type: none"> Preferential treatment for experienced researchers more than 1 SCI(E) papers within recent three years Preferential for those who can speak fluent English
GHM1-3	Post-Doctoral Researcher -Chemical Biology (Pl. Jung-Ming Kee)	1	<p>[main task]</p> <ul style="list-style-type: none"> Perform research project <ul style="list-style-type: none"> - Synthesis of chemical biology probes and protein labeling studies - Proteomic analysis - Kinase/phosphatase activity assays <p>[Eligibility]</p> <ul style="list-style-type: none"> Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) <p>[Preferential]</p> <ul style="list-style-type: none"> Preferential treatment for experienced researchers more than 1 SCI(E) papers within recent three years Preferential for those who can speak English
GHM1-4	Researcher -Chemistry (Pl. Hyeon Suk Shin)	1	<p>[main task]</p> <ul style="list-style-type: none"> Synthesis of boron nitrides by CVD or liquid exfoliation Their characterization by using spectroscopic methods <p>[Eligibility]</p> <ul style="list-style-type: none"> B.S. degree or higher degree (in science and engineering) <p>[Preferential]</p> <ul style="list-style-type: none"> Research experience in related fields preferred Research and industry experience for more than 5 years.
MIH1-1	Post-Doctoral Researcher - Mathematics (Pl. Bongsoo Jang)	1	<p>[main task]</p> <ul style="list-style-type: none"> Perform research project including research paper writing and numerical simulation Lab research activities <ul style="list-style-type: none"> - Scheduling of and participating in lab research meetings and seminars - Monitoring and reporting research activities of lab graduate students <p>Research take</p>

			<ul style="list-style-type: none"> ◦ Field: Numerical analysis of fractional system and dynamical applications <p>[Eligibility]</p> <ul style="list-style-type: none"> ◦ Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) ◦ Expertise related to any of the following areas: Scientific Computation, Numerical Analysis, Dynamics, Machine Learning ◦ At least two published (or accepted for publication) SCI(E) paper within recent three year as the first or corresponding author. <p>[Preferential]</p> <ul style="list-style-type: none"> ◦ At least 1 published (or accepted for publication) SCI(E) paper within recent three years for each applied research field.
MIH-1-2	Post-Doctoral Researcher - Mathematics (Pl. Bongsoo Jang)	1	<p>[main task]</p> <ul style="list-style-type: none"> ◦ Perform research project including research paper writing and numerical simulation ◦ Lab research activities <ul style="list-style-type: none"> - Scheduling of and participating in lab research meetings and seminars - Monitoring and reporting research activities of lab graduate students <p>Research take</p> <ul style="list-style-type: none"> ◦ Field : Evolutionary game theory, biodiversity and complex network <p>[Eligibility]</p> <ul style="list-style-type: none"> ◦ Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) ◦ Expertise related to any of the following areas: Scientific Computation, Numerical Analysis, Dynamics, Machine Learning ◦ At least two published (or accepted for publication) SCI(E) paper within recent three year as the first or corresponding author. <p>[Preferential]</p> <ul style="list-style-type: none"> ◦ At least 1 published (or accepted for publication) SCI(E) paper within recent three years for each applied research field.
MIH-1-3	Post-Doctoral Researcher -Mathematics (Pl. Yunho Kim)	1	<p>[main task]</p> <ul style="list-style-type: none"> ◦ Perform research project including research paper writing ◦ Lab research activities <ul style="list-style-type: none"> - Scheduling of and participating in lab research meetings and seminars - Monitoring and reporting research activities of lab graduate students <p>[Eligibility]</p> <ul style="list-style-type: none"> ◦ Ph.D. degree (holders or prospective doctoral candidates until the appointment date) ◦ Expertise related to any of the following areas: Analysis, PDEs, Optimization/Numerical Methods <p>[Preferences]</p> <ul style="list-style-type: none"> ◦ Programming experience in Machine Learning or Image Processing ◦ At least 1 published (or accepted for publication) SCI(E) paper within recent three years
PHY-1-1	Post-Doctoral Researcher - Astronomy (Pl. Dongsu Ryu)	1	<p>[main task]</p> <ul style="list-style-type: none"> ◦ Perform research project <ul style="list-style-type: none"> - numerical simulations of astrophysical turbulence - Radio observations <p>[Eligibility]</p> <ul style="list-style-type: none"> ◦ Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) <p>[Preferential]</p> <ul style="list-style-type: none"> ◦ Preferential treatment for experienced researchers ◦ more than 1 SCI(E) papers within recent three years ◦ Preferential for those who can speak English
PHY-1-2	Post-Doctoral Researcher - Physics (Pl. Daisik Kim)	1	<p>[main task]</p> <ul style="list-style-type: none"> ◦ Nanogap fabrication using different technique <ul style="list-style-type: none"> - Photolithography, deposition using PVD - FESEM, measurement in THz and microwave frequency <p>[Eligibility]</p> <ul style="list-style-type: none"> ◦ Ph.D. Degree (holders or prospective doctoral candidates until the appointment date) <p>[Preferential]</p> <ul style="list-style-type: none"> ◦ Preferential treatment for experienced researchers ◦ more than 1 SCI(E) papers within recent three years ◦ Preferential for those who can speak English ◦ more than 1 SCI(E) papers within recent three years ◦ Preferential for those who can speak English

PHY-1-3	Researcher - Physics (Pl. Joonwoo Jeong)	1	<p>[main task]</p> <ul style="list-style-type: none"> Perform research project <ul style="list-style-type: none"> Preparing liquid crystals specimens and observing them with optical microscopes Designing and conducting statistical physics experiments with liquid crystals <p>[Eligibility]</p> <ul style="list-style-type: none"> One who have experiences in experiments with liquid crystals M.S. Degree or higher (holders or prospective doctoral candidates until the appointment date) <p>[Preferential]</p> <ul style="list-style-type: none"> Preferential treatment for experienced researchers Preferential for those who can speak English(TOEIC score above 650)

※ Notice

1) Applicants can apply to only one field

- Career or qualifications in each fields' requirement or preferred conditions must be supported with proofs such as certificates. in case submitted proofs are confirmed as false documents, acceptance can be cancelled.
- The criteria for accreditation of official English grades are limited to those published within 2 years of the application deadline
- In the absence of suitable candidates, nobody can be selected.
- There might be primary candidates, so they can be hired with rankings among them in cases such as one of them gives up on the recruitment or there being vacancy in the same field within 6 months.
- UNIST discloses the number of relatives hired according to the government's recruitment system for public institutions.

- 1) Researchers are contracted for up to one year and can be re-signed through evaluation.
- 2) The place of work may be changed depending on internal circumstances
- 3) Salary can be changed depending on experiences in the field through discussion. Extra payment may occur
- 4) Detail of contract can be revised by mutual consent with the Research PI.

III Document Submission and Screening

○ Recruitment notice and documents submission period

- From 23 December, 2021 to 7 January, 2022 @ 24:00
- Only applications that arrived during the period are Valid.

○ Document Submission: Recruiter [E-mail\(inforam@unist.ac.kr\)](mailto:inforam@unist.ac.kr)

※ How to apply

- The submitted documents are converted into one PDF file (after scanning) and sent by e-mail.
- Subject: 「Position-Recruitment Area: OOO(Applicant name)」
- Note: Applications should be received by 24:00 on the due date(Korean Time)

○ Documents to be submitted

Position	Submission documents	Remarks
Post-doc researcher	1) Applicant Form 2) Self introduction 3) Agreement to provide personal information to third parties	- Required documents - Refer to attachment

※ When filling out the application form, the relevant documents must be prepared in advance. Successful applicants will be canceled due to erroneous input. All responsibility for harm lies with the applicant.

※ According to blind employment, there is to be no submission of photograph, school name, name of advisor, credit, family, relationship, family name, date of birth, and physical condition.

○ Screening & Other Information

Screening Stage	how to select
Document Screening	Evaluate the suitability of recruitment area, select 5 times the number of candidates that the opening in order of the highest total score. ※ Evaluation Standard(Score) - Post-Doctoral Researcher: Self instruction(50), Job competencies(50) - Researcher: Self instruction(70), Research and Industry experience(30)
Interview Screening	Evaluation of research performance and specialties and job performance

	ability in recruitment area ※ Evaluation Standard(Score) - Post-Doctoral Researcher / Researcher: Job competencies(30), Development potential(30), Suitability for UNIST(20), Basic ability(20)
--	--

○ **Final appointment**

- Under article 33 of the National Civil Service Act regarding the disqualification conditions of the appointment of national civil services, successful candidates who are applicable of the disqualification conditions or failed in physical examination will be excluded from appointment.
- Persons whose identity has been identified as a result of an inquiry and a survey of candidates for recruitment(final interview candidates) in accordance with the original rules may be canceled through discussion.
- If a person is found to have a final appointment and has been found to have submitted false information, application forgery, or fraudulent employment, the appointment may be canceled as per Article 33 of the Civil Service Act.
- If an unsuccessful candidate wishes to retrieve one's application document, request can be made within 2 weeks of announcement
- **Police Clearance Certificate must be submitted before joining UNIST.**

IV Recruitment Schedule

Step	Schedule	Remarks
Application Period	2021.12.23. ~ 2022.01.07.	~24:00 on 2022.01.07.
Documents review	2022.01.10. ~ 2022.01.14.	Announcement of successful candidates: 2022.01.14.
Interview	2022.01.17. ~ 2022.01.21.	Announcement of successful candidates: 2022.01.21.
Appointment	2022.02.~	

※ **Schedules are subject to change.**
